

MIDAZ-TOUCH **600°C HR ALUMINIUM PAINTS:**

MIDAZ-TOUCH Quick Air Drying **Acrylic Based ALUMINIUM PAINT** **Offers Shiny Decorative Anti Rust Coating**

Offer highest ANTI-CORROSION for all MILD STEEL & Galvanized Steel Fabrications Located in MARINE , SALINE and Highly Corrosive Atmospheres .

Innovative Coating Industries : Pune & Thane offers MIDAZ-TOUCH Brand ALUMINIUM PAINTS which are excellent, extremely quick drying, High Gloss Paints. Based on Quick Air Drying Acrylic Modified Resins, these paints offer **ULTIMATE CORROSION RESISTANCE** to all such **Fabricated structures located in MARINE, SALTY and Very corrosive atmospheric conditions. .**

Due to HORIZONTAL PACKING of the Aluminium Flakes, the coating substantially increases the anti-Corrosion Properties of the Coated Surface. **Surface to be coated shall be free from oil / grease / dust / dirt / rust & other foreign matters.** The Acrylic Resin film from this Paint make the DRY Film Highly Water repellent, in addition to the Highly Passive Aluminium FLAKES COATING.

Application Areas for MIDAZ TOUCH Midaz-Touch Aluminium Paints :

All MS Fabrications in the Proximity of Sea-Shore, Saline Atmospheres, Steel Structures Exhaust Pipes Fabrications near Coastal Areas , Chemical and Petro-chemical Plants, Off Shore Platforms and Rigs Constructions, Steel Mfg Paper, Pharma, Cement, Fertilizers , Pesticide and Insecticides plants and all such fabrications in highly Corrosive Locations.

Surface Preparations: The surface to be coated shall be Sand / Grit Blasted / Sand-papered for getting best results. This will very substantially improve ADHESION to the base Metal and hence will enhance Anti-Corrosion.

ALUMINIUM PAINTS are mainly used for getting a high level of GLOSS, AESTHETICS and the highest degree of Corrosion protection applications. **The Paint** offers a very tough bright coating & will touch dry within 5-10 Minutes and will leave a very uniform Aluminium Metal Powder Coating on the coated substrate. Aluminium Metal being **fairly PASSIVE TO ATMOSPHERIC OXIDATION, Prevents RUSTING of Iron Metal. Polymerized ACRYLIC film offers highest degree of WATER REPELLANCE, Thus eliminating the basic root-cause of Rusting.** Over-coating, if necessary, may be done after 8 hrs.

One Litre of **Aluminium Paint** will give approx 10 Meters Squares coverage and will deposit 18–22 Microns coating by single coat Spray / Dip. As per our Lab Tests, the coated surface **Passes 500 Hrs Fog chamber salt spray test & has excellent adhesion, scratch resistance and anti-corrosion properties.**

The other METALLIC PAINTS OFFERED are :

- **Gold Finish Paint**
- **Silver Finish Paints**
- **Copper Finish Paints**
- **Bronze Finish Paints**
- **Chrome Finish Paints**
- **BLACK , WHITE Touch up Paints**
- **RAL Paint Shades for Powder Coating**

These paints are available in 500 ml Self Spray AEROSOL Cans as well as in 4 & 20 Litre Tins.

Recommended Uses & Areas of Application for ALUMINIUM PAINTS

All types of Mild Steel Fabrication & All Engineered Structures using Galvanized steel , Power Plants, Transmission Lines Towers, Lighting Poles Mfg & Erection, Cable Trays, Sub-Station Erection / Maintenance, Tower lights, Electric Poles, Mobile signaling towers, Gratings, Transformers & the frameworks, Scaffoldings & Formworks , W-Channels, Every type of Hot Dip Galvanized Metals, Tubes, Angles, Channels, Strips, I-Beams, Factory Trusses, Chimneys , Silos , Tank Farms, All Weld Joints in Mild steel fabrication, Dish Antennas, Automobile Exhaust System Components / Pipes & Ducting, Steel Buildings, Canopies, False Ceilings, Air Conditioning Ducts, Ventilator Structures, Engine Housing of Scooter / Motor Cycles, Tubes and Pipes, Chemical Plants and Pipelines, Ship Building ,Off-Shore Platforms Fabrications, Under-Body Coating for Four wheelers, Trucks & Tractors, Wheel Drums, Alloy Wheels etc.

MIDAZTOUCH ALUMINIUM Paint is an Acrylic Based -Paint is available Ex Stock Chinchwad, Pune works **in 4 Litre Tin Packing @ Rs 210 / Litre and in 20 Ltr Drum Pack @ Rs 205 / Litre + 12.5% VAT** **500 ml AEROSOL SELF SPRAY Can is Rs 225 / Can**

MIDAZTOUCH 600 °C HR ALUMINIUM Paint is a modified Epoxy Based -Paint is available Ex Stock Chinchwad, Pune works **in 4 Litre Tin Packing @ Rs 450 / Litre and in 20 Ltr Drum Packing @ Rs 440 / Litre + 12.5 % VAT** **500 ml AEROSOL SELF SPRAY Can is Rs 410 / Can**
