

POWDER COATING & PAINT REMOVER

UNISTRIP-D

(Solvent Based Paint Strippers)

SCOPE: UNISTRIP – D : Paint Stripper used by dipping process. Unistrip - D is a reddish brown liquid, and is a blend of Hydrocarbon solvents, & chemicals, having very high penetration & cutting power for the various types of Paints and Varnishes, Insulating Varnishes, lacquers and organic Polymer coatings. Unistrip – D is to be used as supplied, without dilution. **UNISTRIP- D is extremely suited for small components, Paints shop hooks, conveyer attachments, frames etc.** The paint stripping time shall be generally 5 Minutes to 30 minutes, and will be dependant on the number of Coats of Primer / Putty / Surfacer and finish paints. For Paint Shop Hooks / Conveyor attachments and the Jigs etc, the paint stripping time could be 2 to four hours by dipping. For accelerated process results intermittant scrapping of the removed layers of the paint films is recommended . The stripped of paint can be removed by a jet of water, and wiped with dry cloth / cotton waste. Unistrip–D tank shall always be kept closed (by covering with a lid) to minimize the losses due to evaporation. Prolonged exposure of Unistrip–D to the atmosphere will reduce the stripping property of the product. Every Normal safety measures shall be exercised by the operators while using this product.

For Preservation of Cleaned Components , it is necessary to protect the cleaned metal surface / fabricated components with any ANTI RUST COATING Products / De-Watering Oils or Rust Preventive.

Unistrip – D is recommended for Stripping POWDER COATING & Paint Shop Jigs

Unistrip – D in Non-Flammable & confirms to the requirements of IS 430 & IS 431.

Unistrip – D is offered in 6 Kgs and 40 Kgs Packings.

Precautions : UNISTRIP–D are Chlorinated organic Solvent based and are **NON FLAMMABLE** in nature. Operators shall use all safety gear while working with UNISTRIP–B & UNISTRIP–D. In case of spillage on the body contact with eyes, flush with plenty of running water & Call for medical attention.

Special Offer for DIRECT BULK BUYERS & HARDWARE Dealers / INDL SUPPLY FIRMS :

For **REDUCING THE PURCHASE COSTS** , Transportation Costs and Transit Damages , PROMTECH CONSULTANCY Offers TOTAL MANUFACTURING KNOW-HOW for manufacturing UNISTRIP -D Powder coating / Paint Removers . This offer is for DIRECT BUYERS , LOCAL TRADERS in INDUSTRIAL SUPPLIES This is guaranteed to effect 40 to 50 % Savings with Each Purchase. **The Mfg Process is COLD MIXING and Any Size Batch (50 Kgs to 500 Kgs) can be completed in LESS THAN 30 Minutes.**

GASKET LOOSNER & REMOVER AEROSOL SPRAY

Recommended for Valves, Engine Housing, Pipelines HVAC Ductings, Water, Steam and Chemicals Pipelines Oil and Gas

Innovative Coating Industries offers **GASKET LOOSNER SPRAYS** during the Yearly SHUT-DOWN and Maintenance Applications. The old, rusted and Brittle gaskets take sizable efforts and time for removal during replacements. These old gaskets also break-Up into pieces and pose a problem in timely maintenance work. Our Gasket loosner Sprays (which also function as Rust Preventive for the Cleaned Metal) will make this job the most comfortable for Chief Engineers, Maintenance staff. The spray is recommended for use in Oil and Gas, Petro Chemicals Plants & Refineries Heavy Chemicals mfg plants, Drugs and Pharma plants, Pesticides, insecticides and fertilizer mfg plants. Cement, Paper, Steel Mills, Auto Mfg and Auto repairs, and several such Industrial Applications:
